

Melchizedek Church of God

The Holy Communion

How to Activate it

The Holy Communion

This is the covenant meal of the households of God, as mandated by the Lord Jesus Christ, that we should do it in remembrance of His death and resurrection (1 Corinthians 11: 23-26)

Benefits of the Holy Communion

- It makes the partakers to be members of the same spiritual family.
- It unites the church or family as a single body. Unity in the body!
- As they take it, the whole church or family become spiritually clean. This is the best time to hold hands together and do agreement prayers.
- The Holy Communion gives a person Grace to run the race of life, live a Holy life and receive spiritual immunity.
- It destroys every work of the devil done against the church or person (1 John 3: 8)
- The Holy Communion removes the enmity between God and man, and makes the people covenant sons and daughters of God.

The rules

It should not be received unworthily. Let the family or church or person go through prayers of Mercy and confessing their sins. Lead them to accept Jesus Christ afresh as their Lord and Saviour (1 Corinthians 11: 27)

Consecrating the Holy Communion

As the pastor of the family, you are supposed to prepare the bread and wine for the family or church service. It is the work of the priest.

What to do

- 👉 Decree that all curses shall be broken from the people as they take this communion.
- 👉 Declare unity, love, oneness, open doors, restoration, protection.... For the church or family through this communion.

Add anything else you want the Lord to achieve through this communion.

Call: **The Blood of Jesus Christ** (*7 times*)

Anoint the bread container and juice bottle with blessed olive oil.

It is now ready for the church or family to use. If you prepare communion like this, it'll be a great weapon for the church or your family. It'll start doing miracles as people receive it.

Warning: It is a very Holy item. Handle it with respect, knowing what it means. It represents the Body and Blood of our Lord Jesus Christ. Keep it in an isolated place, and use only when needed.
